

PRESSLOCK

The Presslock window lock is designed to give added security to multiple timber window applications. With its simplicity of design it makes locking up easy, while being compact and discrete.

Features:

- Push button to deadlock.
- One way fixing screws for top security.
- Compatibility with the ASSA ABLOY "One Key Security" programme enables the lock to be keyed alike to a variety of Securicraft, Interlock and Lockwood products.
- Versatile for a range of window applications.
- Ease of installation.
- Strongly constructed lock body for maximum durability and strength.
