

SECURI-SASHLOCK

The Securi-Sashlock is a robust surface mounted press-lock designed to help aluminium windows resist forced entry. Suitable for top hung and side hung sashes, the Sashlock incorporates a unique design that locks the window sash to the frame.

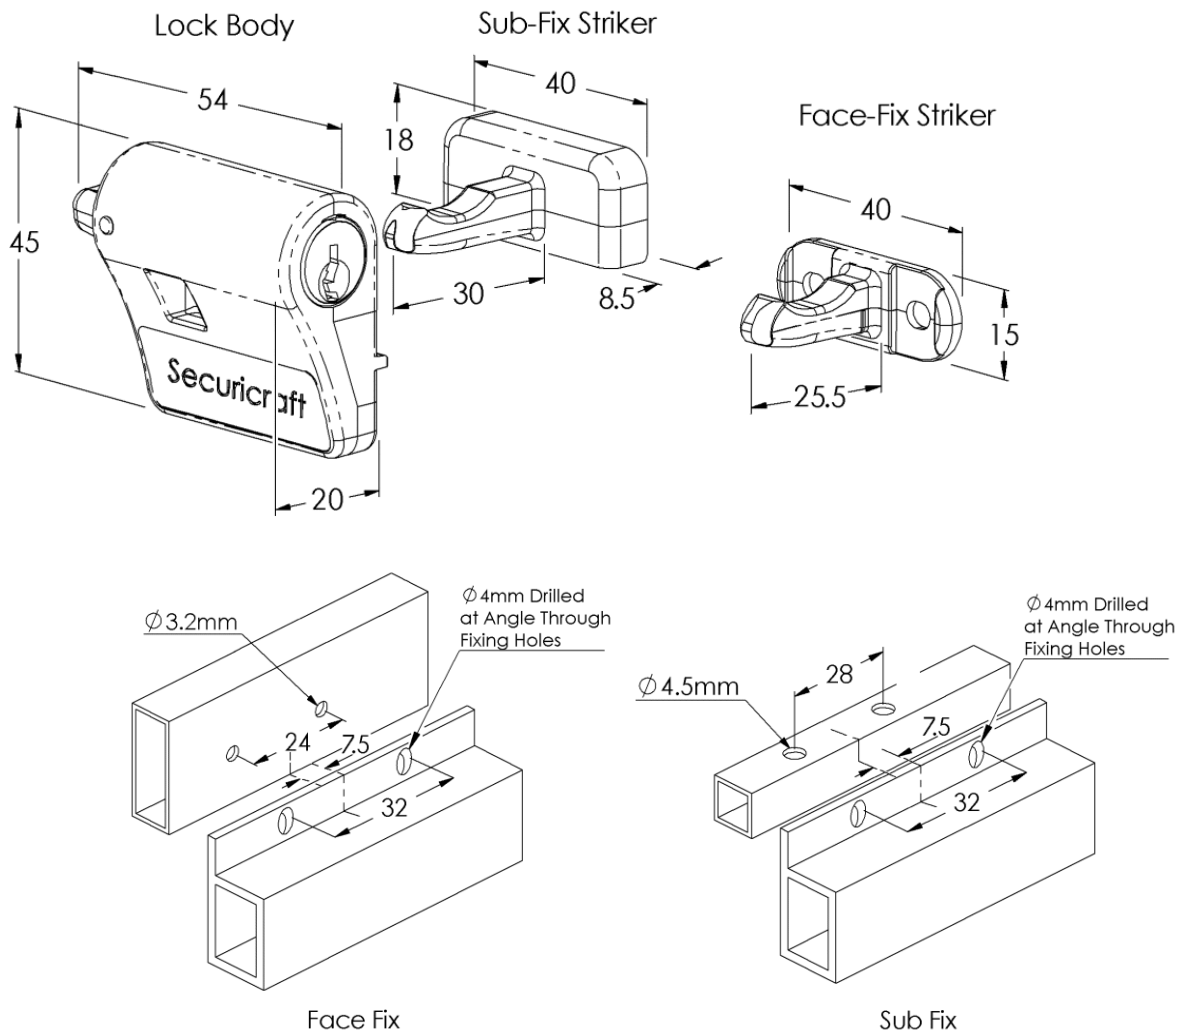

Options:

- Method of fixing options:
 - Face fix
 - Sub fix
- Powdercoat finishes with a wide selection of colours to complement the window design and finish.

Features:

- Compatibility with the ASSA ABLOY "One Key Security" programme enables the Sashlock to be keyed alike to a variety of Securicraft, Interlock and Lockwood products.
- Easy to activate deadlock with Daylatch function.
- High quality pressure die-cast construction with concealed fixing screws.
- Packers available to allow the Sashlock to fit most designs of aluminium joinery.
