

The Yale logo is a yellow circle with the word "Yale" in black, sans-serif font, followed by a registered trademark symbol (®).

fingerprint digital door lock

Never carry keys again with the Yale Fingerprint Digital Door Lock - an intelligent biometric lock with advanced one-touch fingerprint verification technology. With its sleek design and cutting edge features, this is a premium security solution for the contemporary home.

Suitable for both timber and aluminium applications, it can be used with PIN code, fingerprint verification or key. There are also a range of accessories available for easy, keyfree access to your home.

VARIOUS ACCESS

Three access solutions, PIN code, fingerprint verification or key for your convenience.

ONE-TOUCH FINGERPRINT VERIFICATION METHOD (EASY SCAN)

Easy Scan technology has been applied to conveniently read a fingerprint in one shot without the need to open or close the cover to enter a fingerprint.

SMART TOUCHPAD

To prevent the password from being exposed due to residual fingerprints after opening a door, a new technology has been adopted to complete the door opening process by wiping the keypad with your palm after entering the password.

SCRAMBLING CODE

You can add meaningless numbers before or after the code when there is a chance of exposing your code to others.

SAFE HANDLE - SELECTABLE

When enabled, the button on the inside handle must be depressed before the lever will operate. This is a child safety feature as small children will have difficulty opening the door.

ALARM (BREAK-IN / DAMAGE)

80dB alarm goes off if anyone attempts to damage the lock or force the door open.

LOW BATTERY AND EMERGENCY POWER

It warns in case of low battery with alarm and LED. When the batteries are completely discharged, you can easily supply power to the lock from outside with a standard 9V battery.

ACCESSORIES

Remote control, wall remote*, prox dots, aluminium strike kits and rebate kits are all available as optional accessories.

**Remote control and wall remote require receiver module, sold separately.*
