premium digital door lock

Combining high security with cutting edge technology, the Yale Premium Digital Door Lock is a high quality security solution for the contemporary home.

Suitable for both timber and aluminium applications, the Yale Premium Digital Door Lock can be used with PIN code, proximity cards or key. There are also a range of accessories available for easy, keyfree access to your home.

VARIOUS ACCESS

Three access solutions, PIN code, proximity card, or key for your convenience.

SMART TOUCHPAD

To prevent the password from being exposed due to residual fingerprints after opening a door, a new technology has been adopted to complete the door opening process by wiping the keypad with your palm after entering the password.

SCRAMBLING CODE

You can add meaningless numbers before or after the code when there is a chance of exposing your code to others.

AUTOMATIC LOCKING - SELECTABLE

Automatically locks the door after checking it is properly closed. (Manual operation is also selectable)

SAFE HANDLE - SELECTABLE

When enabled, the button on the inside handle must be depressed before the lever will operate. This is a child safety feature as small children will have difficulty opening the door.

ALARM (BREAK-IN / DAMAGE)

80dB alarm goes off if anyone attempts to damage the lock or force the door open.

LOW BATTERY AND EMERGENCY POWER

It warns in case of low battery with alarm and LED. When the batteries are completely discharged, you can easily supply power to the lock from outside with a standard 9V battery.

ACCESSORIES

Remote control, wall remote*, prox dots, aluminium strike kits and rebate kits are all available as optional accessories.

**Remote control and wall remote require receiver module, sold separately.*

PRODUCT SPECIFICATION

Type	Mortice lock
Proximity card keys	4 (Max 40)
Mechanical keys	2
PIN code	6-12 digits
Finish	Stainless Steel
Door type	Timber / Aluminium
Door thickness	40-95mm
Backset	60mm
Part number	SYDM3109
