

# CL100 DigiLock

## Handles & locks for sliding doors

By taking our standard **CL100 Mortice** and adding the functionality of a **Digital Lock**, we can offer customers high security that is upgradeable (by changing pin numbers) and dependable.

This lock can be set to "slam lock" which means every time the door is closed it is locked and requires pin code access to open. There is an added function of dual security - this lock can be supplied with pin code + key access, meaning you need both access passes to get in!

Finishes available: SCP or PB.

## Construction

Case:	Diecast Zinc
Internal Parts:	Bronze/Brass
Screws, springs etc:	Stainless Steel
Faceplate & striker:	Brushed Stainless Steel or Brass (depending on finish req.)

## Dimensions

CL100 DigiLock with key locking fitted to a timber veneer door.

Digital locks are easily programmable to suit pass code of your choice. Full instructions are included.

## Finish Options & Configurations

Satin Chrome		Polished Brass	
CL100B5006	DigiLock	CL100B5007	DigiLock
