Lockwood Security Products Pty Limited

Brass Door Furniture

Brass Door Furniture

Lockwood Brass Door Furniture is strong and reliable with a quality feel and smooth action characteristic of the world's finest door furniture, ensuring trouble-free service.

Lockwood Brass Door Furniture is available in a wide range of stylish knob, lever and plate designs suitable for architectural, industrial, commercial and residential applications.

Lockwood furniture is made from the highest quality materials and is available in a range of superb finishes that provide complete freedom of choice.

Plates & Roses

Style and versatility are combined in this range which comprises seven architecturally designed plates and roses which give you the flexibility to mix and match to suit the aesthetics of every application.

Levers & Knobs

The 28 levers and knobs in the Lockwood range share excellent ergonomics, but provide you with the opportunity to select the optimum design from widely differing styles.

Escutcheons & Turnknobs

To complete the flexibility of the Lockwood range, this vast choice of escutcheons, turnknobs, emergency releases and indicators are designed to complement every combination.

Push & Pull Plates

The Symphony range of entrance handles offers a range of designs with fittings available to suit glazed, aluminium and timber doors.

The 194 Series complements our range of brass furniture offering a range of solid brass, raised profile push and pull plates.

Brass Door Furniture

Application

A range of high quality levers and knobs suitable for use in public, commercial, industrial, institutional and residential buildings, where there is a need for high quality and durable fittings.

Features & Specifications

All Lockwood Door Brass Furniture is manufactured using the finest materials, with an easy action and strength attributable to the world's finest door furniture.

Handing

A removable stop screw allows all symmetrically designed levers (eg. Harmony) to be handed on site.

Levers of asymmetrical design (eg. Veloce) cannot be reversed. Specify handing left or right hand when ordering.

Materials

All Lockwood plates and levers contained in this catalogue are of a solid brass construction.

Fixing

Fully concealed on both sides in the Symphony series. Concealed exterior fixing on all other series.

Door Thickness

33 mm minimum for A5250 latches and 32 mm minimum for Lockwood 3570 Series Mortice Locks. Maximum door thickness 50 mm. Doors requiring longer fix screws, on application.

Lockwood Brass Door Furniture

Lockwood Security Products reserves the right to make changes in design or specifications, or to make additions or improvements to their product without incurring any obligation to incorporate these amendments in product previously manufactured.

Lockwood Security Products are not responsible for additions or alterations made to their product by others.

FIRE RATED

Lockwood Brass Door Furniture has been successfully fire tested up to 4 Hours (depending on the type of firer door) on fire door assemblies, in accordance with Australian Standard AS 1905.1 – 1997, Part 1: Fire-resistant doorsets.

Security

S3 HIGHEST SECURITY

All Lockwood Brass Door Furniture conforms with level S3 (Physical Security) Australian Lock Standard. (Standard Number AS 4145.2: 1993).

Durability

D3 DURABILITY

All Lockwood Brass Door Furniture conforms with level D3 (Durability) Australian Lock Standard (Standard Number AS 4145.2: 1993).

ANTI-CORROSION

This product has been successfully tested in accordance with AS 2331-3.1: 1980. Neutral Salt Spray Test (NSS TEST).

Specification Service

For all Architectural hardware specification assistance refer to your local Lockwood Sales Office. A fully comprehensive, obligation free, Architectural Door Hardware specification can be prepared by Lockwood Architectural Hardware Representatives.

Cleaning

Care should be taken during construction/ refurbishment to ensure that paint, thinners, mortar or cement splashes are carefully removed from locks, furniture and hardware. Removal of these splashes with strong cleaning agents or scourers should be avoided.

Dirt and grime should be regularly removed with a soft damp cloth.

A solution of mild soap and water may be required. During cleaning, care should be taken to prevent cleaning solution from entering the cylinder keyway. Surfaces should be dried and possibly lubricated.

Lubrication

During assembly of the furniture, the areas of contact of the internal mechanism which require lubrication are given an application of high quality grease. Where an installation is exposed to temperature extremes, a dusty or dirty environment, or such that the original lubricant becomes contaminated resulting in unsatisfactory operation, then the mechanism should be cleaned with a non-corrosive solvent and re-lubricated.

Due to different bearing bush, the plate thickness for working out the projection of lever/knob in the 4800/5800 series would be based on a plate thickness of 15 mm (except lever number 90).

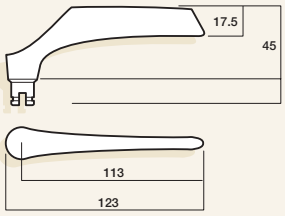
Lever 00

Dimensions

Length	123 mm
Projection	57.5 mm
Finger clearance	40 mm

Description

The contrasting planes of this lever add design without being intrusive.



Knob 20

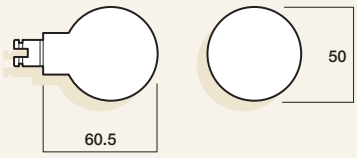
Dimensions

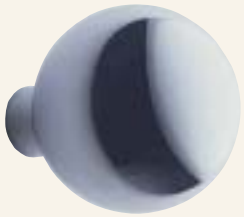
Diameter	50 mm
Projection	73 mm

Description

The classic, spherical form of this knob is pleasant to hold and complements a wide range of plates.

Not compatible with Symphony roses





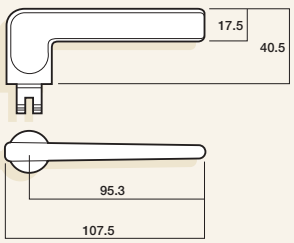
Lever 32

Dimensions

Length	107.5 mm
Projection	53 mm
Finger clearance	35.5 mm

Description

This traditional Australian shape has clear lines and distinctive form to enhance its quality.



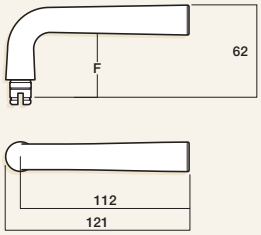
Baton 39

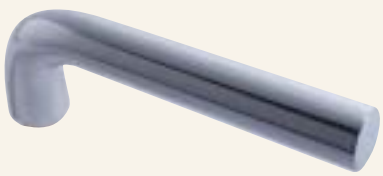
Dimensions

Length	121 mm
Projection	62 mm
F= Finger clearance	42 mm

Description

A statement of simplicity, Baton 39 features straight lines and a smooth rounded lever grip.





Lockwood Brass Lever & Knob Furniture (continued)

Knob 40

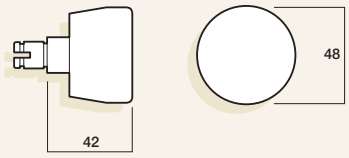
Dimensions

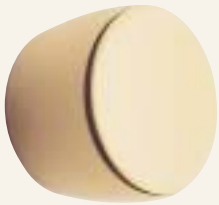
Diameter	48 mm
Projection	54.5 mm

Description

This traditionally shaped concave knob is subtly simple yet distinctly elegant.

Not compatible with Symphony roses





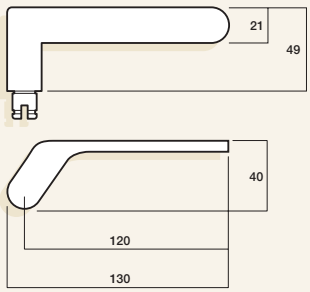
Intermezzo 41

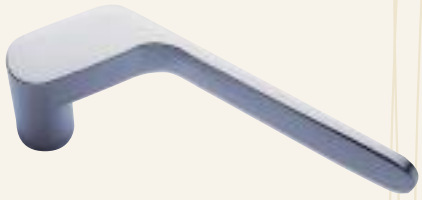
Dimensions

Length	130 mm
Projection	61.5 mm
Finger clearance	40.5 mm

Description

A distinctly modern approach combining elegant lines and an offset lever action give the Intermezzo its unique appeal. Lever is an asymmetrical design and therefore must be handed.





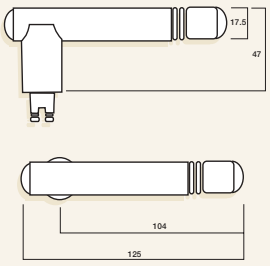
Harmony 43

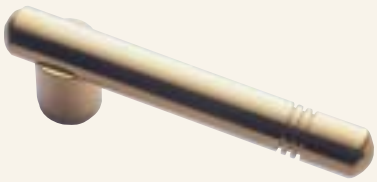
Dimensions

Length	125 mm
Projection	59.5 mm
Finger clearance	42 mm

Description

A lever with curved ends which features a banded motif and is centrally located at the turning point.





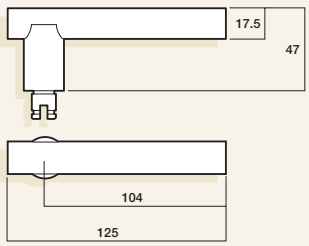
Arpeggio 44

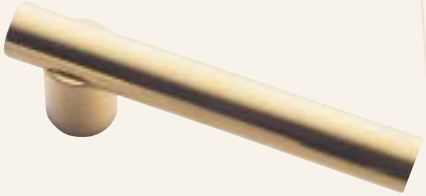
Dimensions

Length	125 mm
Projection	59.5 mm
Finger clearance	42 mm

Description

A statement of simplicity, the Arpeggio features straight lines, cut ends and a lever that sits over the turning point.





Lockwood Brass Lever & Knob Furniture (continued)

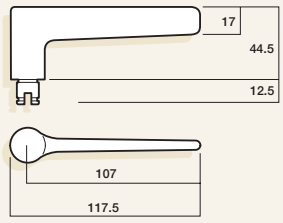
Sonata 45

Dimensions

Length	117.5 mm
Projection	57 mm
Finger clearance	40 mm

Description

The fine lines and elegant design of the Sonata creates a simplicity which allows the rose to feature.



Nocturne 48

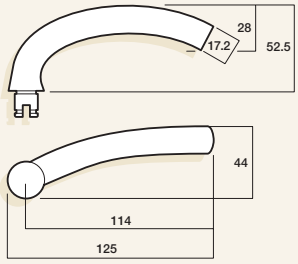
Dimensions

Length	125 mm
Projection	65 mm
Finger clearance	37 mm

Description

Nocturne shows how style and imagination combine to make a lever with a difference.

Lever is an asymmetrical design and therefore must be handed.



Capella 50

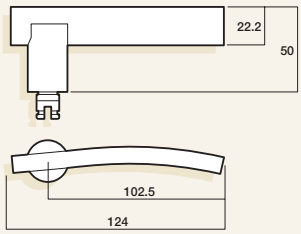
Dimensions

Length	124 mm
Projection	62.5 mm
Finger clearance	40.3 mm

Description

The lever's gently curved form sits across its turning axis, exuding style.

Lever is an asymmetrical design and therefore must be handed.



Veloce 53

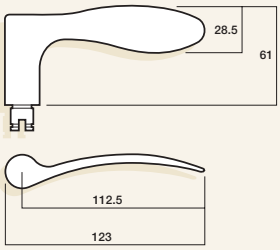
Dimensions

Length	123 mm
Projection	73.5 mm
Finger clearance	45 mm

Description

A gull wing in free flight. A gently sculptured aerofoil that creates its own visual flow and brings a sense of smooth control to the lever concept.

Lever is an asymmetrical design and therefore must be handed.



Lockwood Brass Lever & Knob Furniture (continued)

Operetta 54

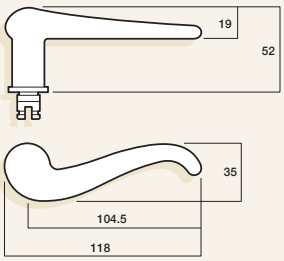
Dimensions

Length	118 mm
Projection	64.5 mm
Finger clearance	45.5 mm

Description

Classical and yet modern, the scroll-like shape of the Operetta gives an imaginative lift to any door.

Lever is an asymmetrical design and therefore must be handed.



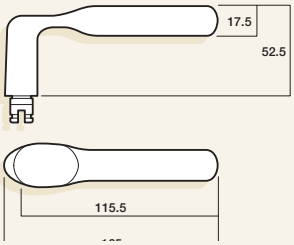
Crescendo 57

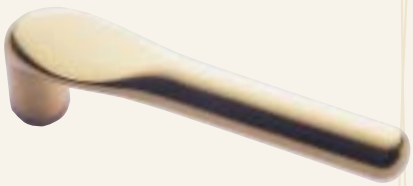
Dimensions

Length	125 mm
Projection	65 mm
Finger clearance	47.5 mm

Description

The fluid lines of the Crescendo promise to melt into the hand, while maintaining a definite pose which accents the centrepiece.





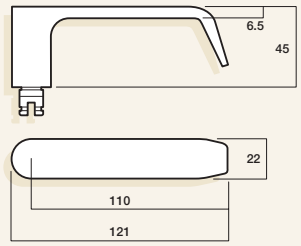
Overture 59

Dimensions

Length	121 mm
Projection	57.5 mm
Finger clearance	51 mm

Description

Just as it provides the perfect prelude, so this fine lever with its subtle shaping achieves a memorable introduction.



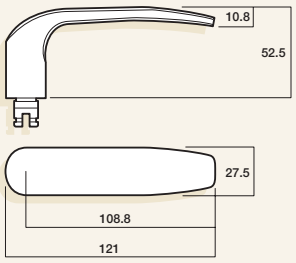
Lever 60

Dimensions

Length	121 mm
Projection	65 mm
Finger clearance	54.2 mm

Description

With a comfortable width and curve, this lever is both pleasant and practical to use.



Lockwood Brass Lever & Knob Furniture (continued)

Soprano 61

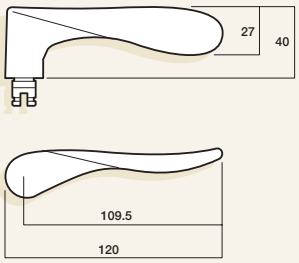
Dimensions

Length	120 mm
Projection	52.5 mm
Finger clearance	25.5 mm

Description

The elegant twist of the Soprano is designed to give visual balance to the lever and maximum comfort to the hand that turns it.

Lever is an asymmetrical design and therefore must be handed.



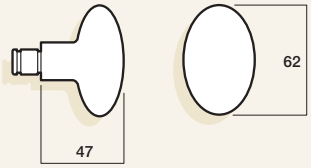
Opus 69

Dimensions

Length	62 mm
Projection	59.5 mm

Description

Combining soft lines with superior quality, Opus is designed to reflect a sense of balance.



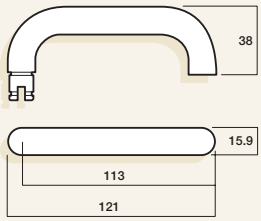
Lever 70

Dimensions

Length	121 mm
Projection	50.5 mm
Finger clearance	34.6 mm

Description

The timeless design of this tubular shaped lever signifies quality and strength.



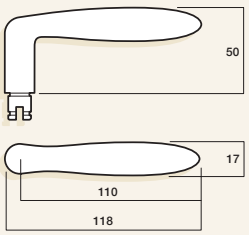
Tempo 71

Dimensions

Length	118 mm
Projection	62 mm
Finger clearance	44.5 mm

Description

The smooth elegance of the Tempo defines it as a timeless lever.



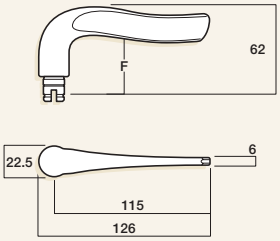
Alto 72

Dimensions

Length	126 mm
Projection	62 mm
F= Finger clearance	35 mm

Description

The Alto lever tapers gently into a blade profile, with flowing contoured curves. Easy fingertip control.
*Design Registered Australia/New Zealand



Lockwood Brass Lever & Knob Furniture (continued)

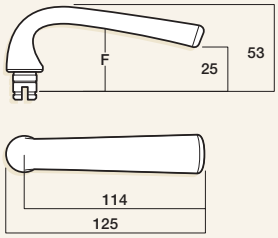
Cantana 73

Dimensions

Length	125 mm
Projection	53 mm
F= Finger clearance	33 mm

Description

A stylish modern lever, combining elegant elongated lines with a subtle flared base.
*Design Registered Australia/New Zealand



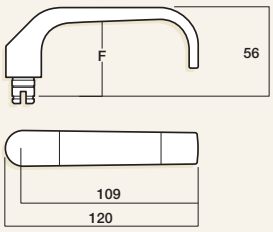
Ving 74

Dimensions

Length	120 mm
Projection	56 mm
F= Finger clearance	48 mm

Description

Chunky, funky and functional, the Ving 74 means business. A strong design statement, ideal for numerous heavy duty applications.
*Design Registered Australia/New Zealand



Cadenza 78

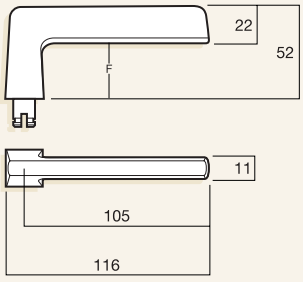
Dimensions

Length	118 mm
Projection	52 mm
F= Finger clearance	30 mm

Description

The sleek design of the Cadenza exudes an aura of elegance.

*Design Registered Australia/New Zealand



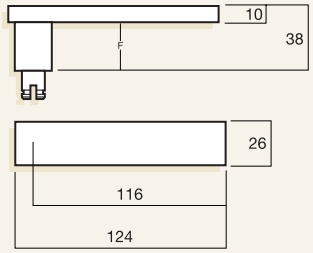
Tenor 79

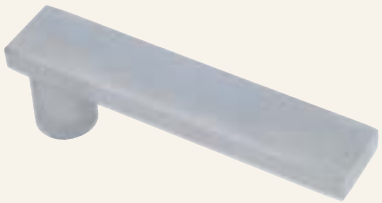
Dimensions

Length	124 mm
Projection	38 mm
F= Finger clearance	28 mm

Description

Contemporary, solid and simple, the Tenor epitomises style and strength.





Lockwood Brass Lever & Knob Furniture (continued)

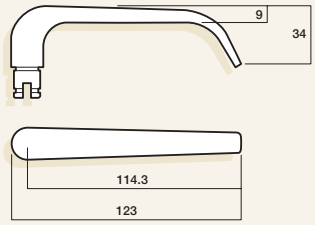
Lever 80

Dimensions

Length	123 mm
Projection	46.5 mm
Finger clearance	37.5 mm

Description

A lever which gently curves and tapers with an understated elegance that makes it suitable for numerous situations.



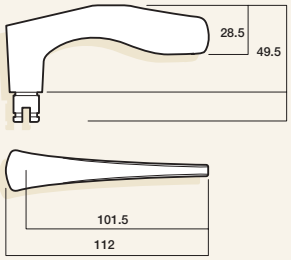
Lever 83

Dimensions

Length	112 mm
Projection	62 mm
Finger clearance	33.5 mm

Description

Subtle curves provide comfort for the hand, while reflecting a quiet elegance.



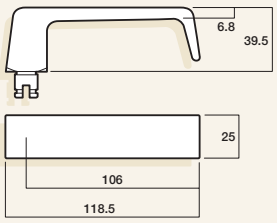
Lever 90

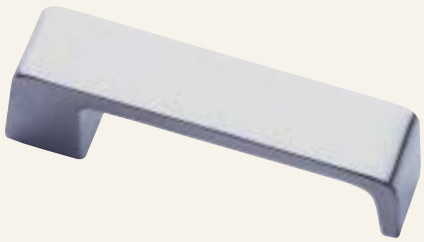
Dimensions

Length	118.5 mm
Projection	52 mm
Finger clearance	45.2 mm

Description

In door furniture as in music, this lever provides distinct movement with its full face lever design punctuated by a right angle, thus making a strong and purposeful statement.
Not compatible with Symphony rose.





Chorus Line 97

Dimensions

Length	120 mm
Projection	50.5 mm
Finger clearance	34.6 mm

Description

This elongated cylindrical lever has style yet sacrifices none of the superb engineering quality that is synonymous with Lockwood.

Lockwood Guarantee

Lockwood Security Products Pty Limited ("Lockwood") guarantees its products against defects in workmanship and materials. If within the normal working life of a product it is found to be defective, Lockwood will supply the same or an equivalent product free of charge.

All electrical components used in our products are guaranteed for a period of five years from the date of manufacture. Lockwood however, assumes no liability under this guarantee for the following:

1. Improper installation or failure to follow fitting instructions.
2. Failure due to improper maintenance or fair wear and tear.
3. Indirect or consequential loss or damage.
4. Cost of removal and/or replacement.
5. Cost of freight and/or travelling time.
6. The plated finishes, Florentine Bronze, Architectural Bronze, Polished Brass, Gold and Satin Brass are classified as soft finishes. As deterioration is possible under some climatic conditions, these finishes are excluded from this guarantee.
7. Any modification to a product as supplied, or repairs, unless authorised by Lockwood.
8. Use of replacement parts other than authorised parts.
9. Malfunction or failure of the product due to the use of non-genuine Lockwood parts.

Nothing in the Lockwood guarantee excludes, restricts or modifies any condition, warranty, right or liability implied or protected by law where to do so would render the Guarantee, or any part of it, void.
