

Aluminium Door Front Edge Pull

The **Aluminium Door Front Edge Pull** is a high-quality front edge pull designed specifically to complement our aluminium door leaves. The body is extruded from aluminium, then machined before brushing, plating and assembly. It is strong enough to provide a positive grip on even the heaviest doors.

Once installed, this edge pull sits virtually flush with the edge of the door and has no visible screw fixings.

The Aluminium Door Front Edge Pull suits our **CS NewYorker** glazed doors, and the **CS AluMax**, **CS AluTec** and **CS MirrorLite**.

Halliday & Baillie End Pull

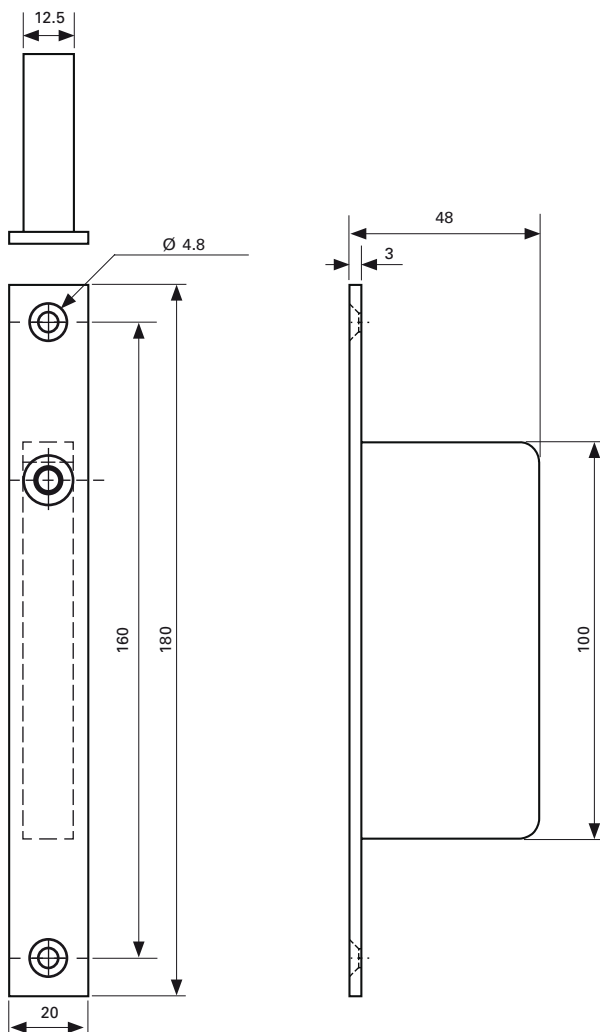

Handles & locks for sliding doors

The Halliday & Baillie **Sliding Door End Pull** belongs to the Halliday & Baillie SLIDING DOOR HARDWARE range. This range of architectural hardware is specifically designed for cavity and surface sliding doors.

The small face plate, with its smooth push button release, and the narrow 48mm back-set, make the H & B End Pull ideal for both timber and aluminium doors. This stylish handle is suitable for residential and commercial applications, either inside or outdoors.

Dimensions

Drawings & pictures are not to scale. All dimensions in millimetres.

Configuration Options

↑ The H & B End Pull, in the closed position, fitted to a timber veneer door.

← The End Pull, in the open position, fitted to a CS FOR DOORS aluminium NewYorkeR door.

Finish Options

■ Chrome
■ Satin Chrome

■ Rubbed Dark Bronze
