

HB 1092

RESTRICTOR WINDOW STAY

Designed with a simplicity of function, and milled from solid brass with a quarter turn restrictor. The HB1092 Telescopic Restrictor Stay provides simple, effective window control for safety and compliance limiting opening to 100mm.

Note: The HB 1091 is the sister product with 300mm telescopic ability.

For use on timber top/awning hung and side hung windows.

Suitable for some aluminium joinery - please contact your local Halliday + Baillie representative to discuss.

Please check with your local Halliday + Baillie representative as not all finishes are available in all regions.
