HB 1820

FLUSH BOLT (ROUND THROW)

The HB 1820 has evolved from HB600 Flush Pull Series. The bolts are milled from solid brass, and incorporate a tension adjusting mechanism in the back for smooth operation. The HB1820 has a HB1825 one metre extension kit available when the bolt is needed away from the top of the door. Also available is the HB1810 which as a flat bar mechanism ideal for aluminium joinery.

Note: please check dimension drawing re suitability with your track requirements

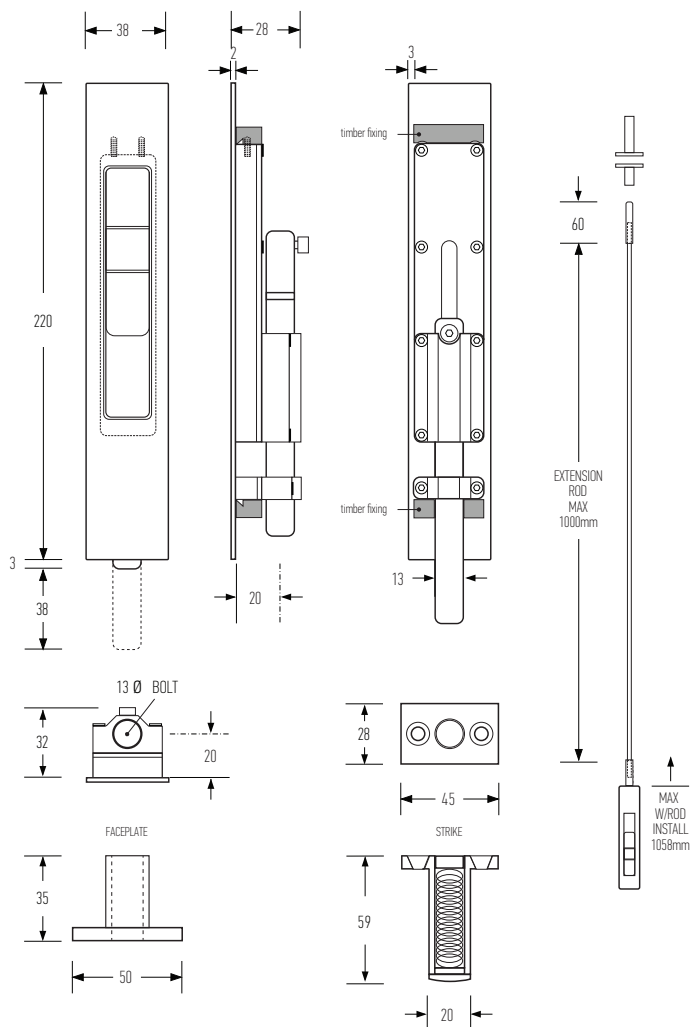

Minimum door thickness: 42mm doors for timber doors.
35mm for aluminium doors.

Suitable for timber or aluminium doors
