## Meridion Privacy Adaptor

### Description

The Meridion Privacy Adaptor is an economical and safe way of adding privacy locking to a Meridion door passage set.

The privacy adaptor has a built in clutching mechanism (patent pending) which disengages the outside lever/knob, but allows the free egress from within a room.

The engaged mode from the outside can be dis-engaged by depressing a tab in the outside rose that will disable the privacy function.

When Safety, Privacy and Convenience is required the Meridion Privacy Adaptor makes good sense all round.

### Fixing

The privacy adaptor can be installed onto an existing Meridion lever/knobset using the standard Meridion tubular latch that is supplied.

Instructions, screws and spindle are supplied with every adaptor.

### Door Thickness

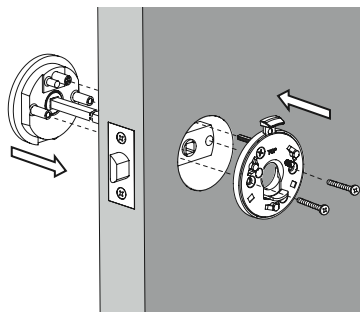

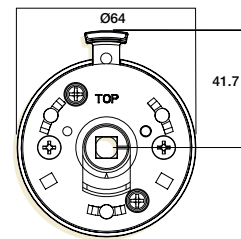

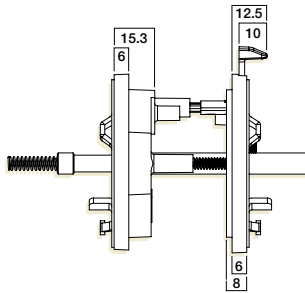

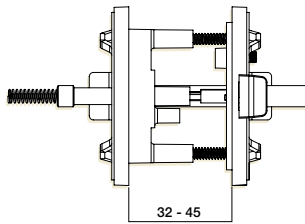

Suitable for door thicknesses of 32 – 45 mm.

### Standard Finishes:

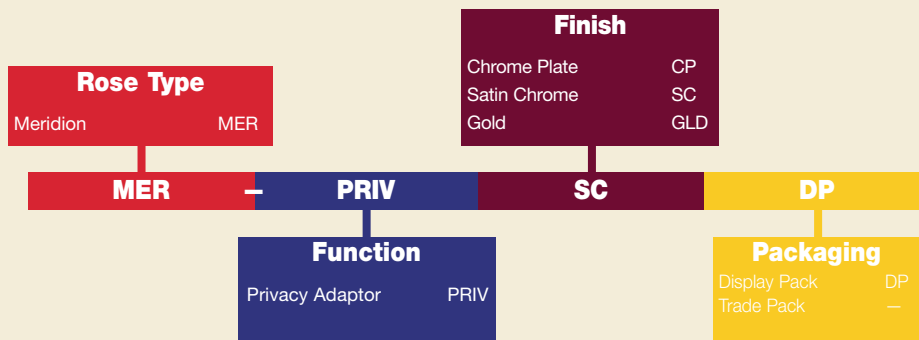

Chrome Plate	CP
Gold	GLD
Satin Chrome	SC

### Convenience

The Meridion Privacy Adaptor can easily be fitted to existing Meridion Door Furniture using a standard tubular latch supplied.
